# WE ARE

## Mercy Health Foundation Fort Smith

Mercy is deeply rooted in this community and is committed to serving those in need with compassionate care and exceptional service. For over 170 years Mercy has been delivering on our promise to this community. And for all we've seen and accomplished, we truly believe our most exciting days lie ahead... Whether it's completing our state-of-the-art emergency department and ICU, expanding our residency programs to grow new doctors right here at home, leveraging technology to ensure you can get care when and how you need it, or creating a whole new level of access to world-class cancer care.

And as a nonprofit health care provider, Mercy has always depended on the support of the community to bring this healing ministry to life. Thank you for continuing to join us in our mission to bring the healing ministry of Jesus to life for our friends, families and neighbors.

"The acts of care and support we receive make a tangible difference in our ability to care for those who seek our services. Mercy is honored to serve residents of the River Valley, and with our valued community partners our work will be sustained for generations to come." - Amy Fore, VP Patient Services, Mercy Arkansas Communities.

We appreciate your support of Mercy!

## Women with a Mission

Established in 2008, the Women with a Mission (WWAM) Giving Society has enhanced the quality of health care in the River Valley with over \$500,000 in gifts and more than 75 projects funded. WWAM brings together women from diverse backgrounds with a common goal of making a difference through the power of giving together. With a \$1,000 annual donation, women collectively pool their resources and collaborate with Mercy administration to identify and fund creative solutions to important health care needs.

### Some WWAM projects funded in 2023:

- **GlideScope Go** | "The Cath Lab team thanks Women With a Mission. Having this equipment in our department is a relief to our staff, knowing we will not have any delay in placing and maintaining an airway on a patient in respiratory distress." – *Cecily Ritchie, Director, Cardiac Cath Lab*
- **Non-Stress Test Machine** | "The NST machine is used to monitor baby's heart rate while resting or moving. Patients with high-risk pregnancies have to be monitored. McAuley Women's Health Clinic serves many of these patients. Our patients have benefited very much from another NST machine in the clinic." – *Renea Buttress, Practice Manager*
- **CT Child Positioner** | "It will help tremendously by reducing body motion and the need for repeated images, it will help to reduce pediatric patient radiation exposure as well as ensure optimal imaging as quickly and efficiently as possible. Thank you so much!" – *Taylor Tanksley, CT Supervisor*

As a proud member of Women With a Mission Giving Society, I've witnessed the remarkable power of collective compassion. It's not just about giving with our membership dues, it's about investing in the health and people of our community."

— *Stephanie Wright, Mercy Health Foundation Board Member, WWAM Member*
