

Built for Kids

Expanding care in southwest Missouri

Children's Mercy and Mercy Springfield Communities entered into a Joint Operating Agreement in August 2025 that brings the strengths of both organizations together to better serve families. Through this collaboration, Children's Mercy is now working alongside Mercy Hospital Springfield to manage hospital-based pediatric specialty services.

This partnership means families can access high-quality, specialized pediatric care—right in their own community.

Services include:

- Pediatric Inpatient Care
- Pediatric Intensive Care Unit (PICU)
- Neonatal Intensive Care Unit (NICU)
- Pediatric Surgery
- Pediatric Emergency Department
- Child Life Services
- Pediatric Social Work
- Pediatric Respiratory Therapy
- Pediatric Physical and Occupational Therapy
- Pediatric Outpatient Procedures (POPs)

Our Commitment

To provide a full continuum of comprehensive pediatric care, to ensure the best possible outcomes for kids.

Key benefits for families in southwest Missouri

Expert pediatric care, close to home: Families in southwest Missouri can now access nationally recognized pediatric specialists without traveling far.

Comprehensive services under one roof: From inpatient care and intensive care units (PICU & NICU) to surgery, emergency care, and therapy services, children can get the full spectrum of specialty care at Mercy Hospital Springfield.

Seamless, coordinated care: The partnership ensures smooth collaboration between local Mercy teams and Children's Mercy experts, making care more connected and easier for families to navigate.

Child-focused approach: Services like Child Life, pediatric social work, and specialized therapies are designed to support not just medical needs, but the emotional and developmental well-being of children.

Community commitment: Both organizations are dedicated to improving children's health and making high-quality care more accessible for families in the region.

Leadership and innovation: The partnership brings together local knowledge and national expertise, with dedicated leadership focused on continuously enhancing pediatric care.

NEW FACILITY COMING LATE 2026

Children's Mercy is building a new, dedicated pediatric outpatient facility to further its commitment to improving access to specialized pediatric care in southwest Missouri.

The new facility will be located at 6375 S. Innovation Ave., in Springfield and will span 40,000 square feet across two stories. It will house Mercy Primary Pediatrics and Children's Mercy pediatric specialists, offering families a centralized location for comprehensive pediatric services.
